Organizers:

Taizhou of China Chamber of International Commerce
Zhejiang Donnor International Exhibition Co., Ltd.

Co-organizers:

Taizhou Donnor Exhibition Co. | Taizhou International Expo Center Co.

Relying on geographical advantages

Leading the smart kitchen and bathroom trend

Empowering global business opportunities

Industrial depth underpins product competitiveness

Taizhou is renowned as the “Bathroom Capital of China” and boasts a complete bathroom industry chain cluster. From precision molds, core hardware, ceramic sanitary ware to intelligent control systems, the upstream and downstream supporting industries are mature and well-developed. The region is home to thousands of manufacturing enterprises with an annual output value exceeding 10 billion yuan, particularly leading the nation in intelligent toilet manufacturing and dominating half of the domestic market. A robust industrial foundation ensures access to cutting-edge technology, a wide range of products, and cost-effective source products, enabling businesses to stay attuned to industry trends and capitalize on endless opportunities.

Government-Enterprise Collaboration Unlocks Global Business Opportunities

This exhibition has received strong support from the Taizhou of China Chamber of International Commerce and various industry associations, serving as a model of efficient government-enterprise collaboration. The government provides robust resource integration, optimizes the business environment, and creates an international-level platform for the exchange of the sanitary ware industry. Professional associations will actively participate in the organization, precisely connecting industry chain resources to ensure the exhibition's high standards and professionalism. During the exhibition, efficient forum activities will also be jointly organized to maximize value for exhibitors and buyers, jointly building a prosperous ecosystem for the sanitary ware industry.

Multiple measures to attract overseas buyers

The Taizhou Kitchen and Bathroom Exhibition will be organized by the organizing committee to focus on developing an overseas procurement system, inviting professional buyers from around the world to accurately reach core global markets and help Chinese kitchen and bathroom companies efficiently expand into international markets. This exhibition is expected to attract overseas purchasers, distributors, and chain channel operators from more than 40 countries to visit and make purchases on site, accurately connecting with high-quality domestic suppliers and building an efficient channel for high-quality Chinese kitchen and bathroom companies to go global.
